Women's National Agricultural and
Horticultural Association

1918

WE wish to express our appreciation of the interest shown by garden lovers in the pioneer work we are doing in this country. It is a good deal of an undertaking to bring to the public a collection of choice varieties which are little known by the majority of gardeners. But the interest is great and the desire to learn very sincere, which encourages us to forge ahead and give the people in our own America the opportunity to add to their gardens the choicest of the European gems. And as they become better known, the only wonder will be that we have deprived ourselves of the pleasure of growing them for so long a time.

We have been obliged to omit a few varieties from our list as we could obtain no more and must conserve what little stock we now have. But we hope to again list them next season and consider ourselves very fortunate in being able to secure as many new varieties as we have. And our list next season will be even more complete.

We specialize on the desirable new and rare varieties as they make their appearance abroad or in this country and our plants are strong, vigorous stock and, grown in our trying climate, we can assure their hardiness anywhere.

We guarantee our plants to be true to name and description but it is obviously impossible to guarantee they will grow after leaving our hands. We are always glad, however, to give all the assistance possible to our patrons by giving them any information desired as to the special requirements of any plant.

We shall be glad to receive inquiries for any plants not included in this list, as we have small stocks of many choice and rare varieties.

Our lists will be increased constantly and the choicer varieties of hardy plants added as fast as we determine their hardiness and adaptability to the climatic conditions of the United States.

TERMS—Cash with order, unless it is desired to open an account with us. In that case, please send financial references, which of course it will take a few days to investigate.

No account opened for less than an initial order of \$10.00.

Not less than six plants supplied at the dozen rate.

Rock Gardens

The object of a rock garden is to enable one to grow flowers that have their homes in the high mountains where snows are deep and summer very short. To be sure, all plants grown in the rockery are not natives of the alpine regions, but the great majority are, and while the beginner is apt to feel that this is a most difficult branch of gardening, it is only necessary to begin with the many easy subjects to find it not only comparatively easy but immensely fascinating and one that opens up entirely new delights in gardening.

We cannot all, of course, have extensive rock gardens; nor is it necessary, for a wonderful collection of rock plants can be grown in a small space. The most of us have a wall or bank that can be converted into a most bewitching spot with the aid of rock plants.

As a rule, alpine plants are so miniature that they at once appeal to the protective instinct and while they appear so delicate as to make one feel they must be most difficult to grow, many of them are of as easy culture as a rose. As to the more difficult kinds, one need not attempt these until their experience grows a little and it is always an incentive to greater effort to know there are delights just beyond us.

It is not necessary to have expense in order to have a delightful rock garden but rather that we turn our attention to the soil and site for the treasures we wish to possess. It must be borne in mind that rock plants are very deep rooting and so need plenty of good soil and extensive root runs, under rocks. Also that in most of cases the surface needs to be kept covered with small stones and that in all cases care should be taken that the rain supply is not cut off by overhanging rocks.

We have not listed any plants too difficult for the ordinary gardener to grow, as we realize we have few specialists on alpine plants in this country at the present time but as our garden lovers become acquainted with the charms of alpine plants, we prophesy there will be many such enthusiasts.

We will always be glad to give lists of plants for special places, free of charge, provided we have the requests between November 1st and March 1st.

ACONITUM—Monkshood

Hardy Perennial

Aconitums are very stately and beautiful plants for the hardy border. Exceedingly valuable on account of their late bloom as well as for planting in shade, as they will flourish even under trees. Thrive best in very rich soil and prefer not to be disturbed when once established.

	Each.	Doz.
A. Fischeri —Semi-dwarf variety with large, pale blue flowers. Commences to bloom in September.....	\$.35	\$ 3.50
A. Sparks' Variety —Very dark blue. Blooms early.....	.35	3.50
A. Wilsoni —Very handsome variety introduced from China by Mr. Wilson. Large, violet-blue flowers from September until frost.....	.50	5.00

ALYSSUM—Mad Wort

Hardy Perennial

Beautiful, showy plants for rock work, bedding, etc. They like a sunny position and well drained soil.

A. orientale —Very showy variety, growing about a foot high and bearing large corymbs of bright yellow flowers	\$.20	\$ 2.00
A. saxatile citrinum —Very attractive variety with paler yellow flowers than the type.....	.20	2.00
A. "Silver Queen" —A very beautiful variety from England. Masses of pale yellow blooms.....	.35	3.50
A. serpyllifolium —Very dwarf, 4 inches to 5 inches high, with racemes of pale yellow flowers and rough, hoary leaves. Charming for the rock garden. Very rare	.50	5.00

ANCHUSA—Alkanet

Hardy Perennial

Anchusas grow readily in ordinary soil in sunny situations but quickly respond to good feeding. Their large hairy leaves and tall spikes of beautiful blue flowers make a fine background in borders and *Physostegia* is very effective planted in front of them, as the latter takes their place when through flowering.

	Each.	Doz.
A. <i>italica</i> —"Dropmore Variety"—A beautiful variety of the Italian Alkanet with numerous flowers of deepest gentian blue. In good soil will reach a height of six to seven feet with numerous side branches, making a most imposing plant. Requires staking.....	\$.25	\$ 2.50
A. <i>italica</i> —"Opal"—A charming blue variety. Identical with above except color.....	.35	3.50
A. <i>italica</i> —"Lissadell Variety"—A recent introduction Flowers clear blue, very large; very floriferous.....	.35	3.50
A. <i>myosotidiflora</i> —A new and very charming variety of Anchusa, its dwarf habit making it suitable either for the rockery or front of the border. Quantities of bright blue flowers in May and June.....	.35	3.50

ANTIRRHINUM—Snapdragon

Hardy Perennial

The ordinary snapdragons are of too coarse growth to be admitted to the rock garden, but there are two or three species that are very charming in June. A dry, sunny spot and well drained soil are essential to success.

A. <i>Asarina</i> —A trailing plant from the south of France with very attractive foliage and creamy white flowers..	\$.35	\$ 3.50
A. <i>glutinosum</i> "Copper King"—A novelty of great beauty. Dwarf habit and quantities of copper colored blooms	.50	5.00
A. <i>glutinosum</i> "Crimson King"—A new variety bearing handsome, deep crimson flowers.....	.50	5.00
A. <i>glutinosum hybridum</i> —A charming strain of lovely colors, very valuable for the rock garden.....	.35	3.50
A. <i>sempervirens</i> —A beautiful trailing plant for the rock garden. Flowers white with purple blotch.....	.35	3.50

ANTHYLLIS—Vetch

Hardy Perennial

A. <i>montana</i> —Somewhat shrubby plant about one foot high with silky foliage and dense heads of pink blossoms. Very easy culture and much prized for the rock garden	\$.50	\$ 5.00
--	--------	---------

AQUILEGIA—Columbine

Hardy Perennial

Each. Doz.

The Aquilegias need no praise; they appeal to everyone by their grace and by the beauty of their flowers, the colors of the new hybrids being particularly handsome. All the Columbines may be used on the rockery, but it is better to leave the larger species and their varieties to the border, although some of them are very attractive when perched on some high spot.

They thrive in shade or sun but prefer a rich, well-drained soil in partially shaded position. If not allowed to go to seed and not covered too heavily in winter, they will flourish for years and will not change their colors. Coal ashes put around the crown in the fall will help to prevent their decay.

A. alpina —A charming species from Switzerland and best suited to the rockery. Beautiful blue and white flowers. Very rare.....	\$.50	\$ 5.00
A. cærulea —True—Lovely white and blue flowers.....	\$.25	\$ 2.50
A. cærulea —"Mrs. Nicholls"—A fine novelty. The flowers are long spurred and immense size. Beautiful coloring of Stuartii, with somewhat better constitution....	.50	5.00
A. "Silver Queen" —New. A very beautiful variety raised in England. Large, elegant flowers with long spurs, white faintly tinged rosy sapphire; 2 ft.....	.50	5.00
A. "White Lady" —A beautiful variety of cærulea with white flowers and graceful foliage; 2 ft.....	.50	5.00
A. canadensis —The native bright red and yellow columbine	.15	1.50
A. chrysantha —Bright yellow, long spurred flowers....	.15	1.50
A. oxysepala —Dwarf and early flowering. Very attractive with flowers of blue and white with yellow centers. Very new.....	.50	5.00
A. Stuartii —A grand variety of glandulosa. Flowers very large, rich blue with white cup and golden anther. Gem for the rockery.....	.50	5.00
A. Viridiflora —Rare and interesting species with greenish flowers. Very fragrant.....	.50	5.00
A. Long-spurred Hybrids —Selected from the finest long-spurred varieties obtainable in Europe; strains		

	Each.	Doz.
that have received the highest awards at the Royal Horticultural Shows in London. They range in color from cream white to delicate lavender, blue, delicate pink, rose, deep purple and pure yellow; 2 ft.....	.25	2.50

ARABIS—Rock Cress

Hardy Perennial

One of the most common of rock plants. Ordinary soil is suitable but they must have a sunny position. We offer the best of the many varieties.

A. <i>albida</i> —Flowers white. Very vigorous plant.....	\$.15	\$ 1.50
A. <i>alpina</i> <i>superba</i> —Large, pure white flowers. Fine for edging and for rockery.....	\$.15	\$ 1.50
A. <i>aubrietioides</i> —A beautiful variety of rock-cress, bearing a profusion of delicate pink flowers.....	.25	2.50
A. <i>caucasica</i> —A cream colored alpina.....	.20	2.00
A. <i>rosea</i> —Very dwarf species with an abundance of rose colored flowers.....	.30	3.00

ARENARIA—Sand Wort

Hardy Perennial

As their name implies, these plants do best in sand and full sun. Beautiful and of easy culture, they are most at home in the rock garden.

A. <i>cæspitosa</i> —A close tufted plant of mossy growth, studded with white flowers all summer. Charming for the rock garden.....	\$.20	\$ 2.00
A. <i>montana</i> —Creeping variety, forming mounds of green which in early summer are covered with large white blossoms. Indispensable for the rockery.....	.20	2.00

ASTER—Dwarf Alpine

Hardy Perennial

A. <i>alpinus</i> —Very effective plants for the rock garden or edge of hardy border. Bear large, showy purple flowers in May and June.....	\$.20	\$ 2.00
A. <i>alpinus</i> <i>himalaicus</i> —More dwarf than the type and bearing a profusion of lilac blue flowers. Very choice	.35	3.50

WOLCOTT NURSERIES

	Each.	Doz.
A. <i>subcærulea</i> —A very handsome dwarf aster. Tufted foliage, slightly hairy, with large, solitary flowers of pale blue with golden centers, making a most beautiful combination	.20	2.00

ASTILBE—Meadow Sweet

Hardy Perennial

Handsome border plants, especially suited to moist or half shady places. Extremely graceful and not known as well as they should be.

A. <i>Ceres</i> —Delicate rose-colored flowers with silvery sheen	\$.35	\$ 3.50
A. <i>Etna</i> —Beautiful rose pink blooms. Very new.....	.50	5.00
A. <i>grandis</i> —A grand species, growing five to six feet tall and bearing immense panicles of white flowers....	.25	2.50
A. <i>Rubens</i> —A recent introduction of great beauty producing large panicles of the deepest rose colored blooms	.50	5.00
A. <i>Salmon Queen</i> —Beautiful salmon pink.....	.35	3.50
A. <i>Vesta</i> —Graceful plumes of lilac-rose.....	.35	3.50
A. <i>simplicifolia</i> —A new, dwarf, Japanese alpine. A gem for the rock garden, freely producing panicles of handsome white flowers. 6 inches.....	.50	5.00

AUBRETIA—Wall Cress

Hardy Perennial

The rock garden could ill afford to do without its wonderful masses of Aubretia that give such a rare color during April and May and which are among the most easily grown and the most showy of all rock plants. They form spreading tufts and are never seen at their best on the flat, but should be so placed that they may droop over some mound of soil or cover the face of a rock, or fall from the top of a rockery wall. A light loamy soil meets their requirements and after the flowers are over the plants should be cut back well, that the tufts may not become bare in the center. We offer the best of the new, named varieties.

A. <i>Bridesmaid</i> —Pale rosy blush.....	\$.25	\$ 2.50
A. <i>Cilicica</i> —One of the best—flowers large and freely		

WOLCOTT NURSERIES

	Each.	Doz.
produced. Lavender with white eye.....	.25	2.50
A. Craven Gem —New—Very fine deep purple.....	.25	2.50
A. Fire King —Glowing Crimson—Very fine.....	.25	2.50
A. H. Marshall —Rich deep mauve colored flowers; late	.25	2.50
A. J. S. Baker —Purple flowers with white eye.....	.25	2.50
A. Leichtlini —Bright rose colored flowers.....	.15	2.50
A. Mrs. Crosfield —A grand purple variety with very large flowers. Earlier than most.....	.25	2.50
A. Mrs. Lloyd Edwards —A deep reddish purple.....	.25	2.50
A. Perkinsii —New Violet blue with white eye; compact	.35	3.50
A. Pritchard's A-1 —New—Violet flowers; compact habit; one of the finest.....	.35	3.50
A. Selected Hybrids —From fine large flowered varieties, ranging in color from rose to carmen.....	.20	2.00

BELLIS—Daisy

Hardy Perennial

Nearly everyone is familiar with the common hardy daisy, but the improved form of these delightful plants is a surprise to those who see them for the first time. The size of bloom has been increased until the choicer varieties are as large as small asters. Fine for edgings.

B. Monstrosum —A monster variety of the hardy English Daisy. New, Pure white; 6 inches.....	.15	1.50
B. Pink Beauty —Deep pink, very handsome; 6 inches..	.15	1.50
B. alpinus —Alpine Daisy—A graceful, spreading plant, growing about six inches high and covered with dainty pink and white single flowers throughout the summer and autumn.....	.20	2.00
B. cærulescens —An exceptionally dainty little plant, flowers white, tinted lilac. Requires a warm site. Fine for the rockery; 3 inches.....	\$.25	\$ 2.50
B. nivilas —(Miniature Daisy)—Of low, trailing growth and white flowers. A gem for the rockery.....	.35	2.00

BOCCONIA—Plume Poppy

Hardy Perennial

B. cordata —A very handsome plant, both in foliage and flower, and fine for planting in the border or in groups in almost any position. Flowers of a creamy white, in large panicles, during July and August.....	.15	1.50
--	-----	------

CAMPANULAS—Bellflowers

Hardy Perennials and Biennials

The Bellflowers are for the most part of a very elegant habit and beautiful appearance. The perennial

WOLCOTT NURSERIES

	Each.	Doz.
varieties are all of great beauty, the taller ones being suitable for the border and very valuable as cut flowers, while the dwarfer sorts are well adapted for the front of borders and for rockeries. The most of the varieties are easily grown and unless otherwise specified, prefer a well-drained, rather rich sandy loam. Those adapted to rockery culture are among the choicest of perennial plants.		
C. alliarifolia —Showy and choice bell-flower of pyramidal habit. The flowers are white, long tubed and hang in scores from one side of arching stems.....	.20	2.00
C. barbata —So called because of the hairs inside the blooms. It requires a well-drained soil, containing plenty of stones, and more sun than most of bell-flowers. The handsome pale blue flowers are produced from May to July, on stems about 1 ft. high....	.50	5.00
C. Bowle's Hybrid —A cross between C. <i>carpatica</i> and C. <i>rotundifolia</i> . Very new and very choice.....	.50	5.00
C. Burghalti —A striking plant with long, silky flowers of a lavender blue tint.....	.25	2.50
C. carpatica —The well-known Carpathian Bellflower and suitable for the front of border and rockery. They form large compact tufts and bear a wealth of cup-shaped blossoms about 1½ inches across, of a beautiful shade of blue; 1 ft.....	.15	1.50
C. carpatica alba —The white form. Choice and a beautiful companion for the one preceding.....	.15	1.50
C. carpatica —"Selected White." An extra large and selected variety of the Carpathian Harebell. Pure white flowers, freely produced.....	.25	2.50
C. carpatica —"Riverslea." A dwarf tufted plant, bearing large, flat, saucer-shaped flowers of a pale blue, on slender stems about 1 ft. high.....	.25	2.50
C. garganica —A gem for the rock garden. Forms a low, spreading tuft which in June is covered with starry, light blue flowers having a white eye; exquisite hanging over a rock.....	.50	5.00
C. garganica "W. H. Paine"—Improved form of this charming Italian bellflower. Large, bright violet flowers with white center. More upright in habit than type. A striking plant.....	.75	7.50
C. glomerata Dahurica —Large heads of purple flowers. Fine for the border; 2 ft.....	.20	2.00
C. grandis —A handsome plant with tall spikes of blue flowers	.25	2.50
C. Grossecki —A handsome species with large leaves,		

WOLCOTT NURSERIES

	Each.	Doz.
heart-shaped and coarsely toothed. Flowers all summer, violet, in long racemes; 5 ft.....	.20	2.50
C. <i>lactiflora grandiflora</i> —Very distinct. Pretty blue flowers in large heads. Flowers from July to September; 4 ft.....	.25	2.50
C. <i>lactiflora alba magnifica</i> —A beautiful variety from the Imperial gardens of Petrograd, producing spikes 6 ft. high, bearing large, snowy-white flowers. New and choice	.50	5.00
C. <i>latifolia</i> —A strong growing variety, 3 to 5 ft. high. Flowers in July, blue.....	.20	2.00
C. <i>latifolia Macrantha</i> —Tall and handsome species with royal purple flowers, 2 inches long, trumpet-shaped. Suitable for the border or wild garden.....	.20	2.00
C. <i>persicæfolia</i> —(Peach Bells)—One of the finest border varieties, bearing large, blue, saucer-shaped flowers on long spikes 3 ft. high. June and July.....	.15	1.50
C. <i>persicæfolia alba grandiflora</i> —A fine variety of the above, with extra large blooms. White.....	.15	1.50
C. <i>persicæfolia Mørheimi</i> —A very fine variety of the Peach Bell, with spikes of double, pure white flowers..	.25	2.50
C. <i>Raddeana</i> —A very handsome perennial, forming a compact bush some 12 inches high, with dark, wiry stems and large purple flowers. Very beautiful if planted near a low shrub in the rockery, to act as a light support for the beautiful blossoms.....	.50	5.00
C. <i>rotundifolia</i> —The wild blue English harebell; very graceful drooping blue bells, rising from compact tufts of foliage; fine for rockery.....	.15	1.50
C. <i>rotundifolia alba</i> —Pure white form of this charming harebell	.15	1.50
C. <i>Scheuchzeri</i> —A very graceful plant with a profusion of lavender blue flowers.....	.25	2.50
C. <i>Stansfieldii</i> —An easily grown and beautiful variety of bellflower. It forms a dwarf carpet of leaves and bears unusually large blue, somewhat drooping flowers. Charming in the rockery.....	.50	5.00
C. <i>Steveni</i> —A beautiful <i>Campanula</i> with dense foliage and flowers of a purplish blue. Very floriferous; 6 in.	.50	5.00
C. <i>tomentosa</i> "Maud Landale"—Without doubt the very finest of its variety introduced. A very distinct and beautiful rock plant, producing freely its pale lilac-violet tubular flowers in trailing racemes, which measure nearly a foot in length. The flowers are about $\frac{3}{4}$ of an inch long and calyces are hairy. The

CHRYSANTHEMUM LEUCANTHEMUM

Shasta Daisy

Hardy Perennial

A handsome, strong growing plant for the hardy border and valuable for cutting.

C. Alaska —Handsome plant, with large, glistening white blossoms	\$.15	\$ 1.50
C. Annie House —Very New—Pure white. Three rows of petals. Fine; 2 ft.....	.35	3.50
C. Kenneth —Very New—Pure white, elegantly lacinated. Very lasting.....	.35	3.50
C. King Edward VII. —Huge cup-shaped flowers. Very attractive; 2½ ft.....	.15	1.50
C. Mrs. C. Lowthian Bell —Very large, perfectly formed flowers. Continuous bloomer. One of the largest	.25	2.50
C. Vomerense —Very New—Pure white. The largest and most refined. Undoubtedly the finest of the group. Its flowers frequently measure 6 inches across; 3½ ft.....	.35	3.50

COREOPSIS—Tick Seed

Hardy Perennial

C. grandiflora —A splendid, showy plant for the border or shrubbery. Flowers bright yellow, two or three inches across, all summer. One of the best; 3 ft.	.20	2.00
C. lanceolata —A very popular plant, with lance-shaped leaves and golden yellow flowers; 2 ft.....	.15	1.50

DELPHINIUMS—Hardy Larkspur

Hardy Perennial

The Delphinium of today is one of the most beau-

tiful of all flowers. It is most rich in coloring and very stately of habit. The foliage is very attractive and the spikes of bloom freely borne. A border of Delphiniums will often remain in bloom for two months.

The culture of Delphiniums is exceedingly simple and they thrive in almost any position. A rich, friable loam will suit them finely. Dig deeply, add plenty of well-rotted manure and plant about three to four feet apart, being very careful that no manure comes in contact with the roots.

Planted in lines or groups as a background for other plants, the effect is exceedingly fine. Copious watering in summer will greatly increase the size of spike and flower and top dressing is strongly recommended that the soil will not dry out and bake. Coal ashes strewn over the crowns will protect the plant from slugs and worms through the winter and spring.

	Each.	Doz.
D. Arago —Flowers very large, of a clear, dazzling sky blue with mauve markings; semi-double. Very fine.....	\$1.00	\$10.00
D. Belladonna grandiflora —A much improved form of the Belladonna type bearing large flowers of a beautiful sky blue. Extra fine.....	.30	3.00
D. Cantab —Azure blue, very dark eye; 7 ft.....	.50	5.00

D. Choice Mixed —From a fine collection of named varieties	.25	2.50

DIANTHUS—Pinks

Hardy Perennial

Pinks comprise a large number of valuable plants for the rockery, wall garden or border. We have formed what we consider a very representative collection of Pinks. The majority are of easy culture and where any special treatment is necessary, we have made mention of the fact.

All Pinks should have plenty of sun, unless otherwise mentioned, and the majority may be divided after flowering.

D. alpinus (Alpine Pink)—This is one of the loveliest of all rockery Pinks, with glossy leaves and large flowers of brilliant rose, produced during June and July. It thrives best in loam with some lime added and perhaps a little shade during the hottest part of the summer. A gem for the rock garden; 6 in.....	\$.25	\$ 2.50
D. arenarius (Sand-loving pink)—As its name indicates, this Pink delights in a sandy soil and sun. Flowers white with a carmine ring, deeply fringed and fragrant. Excellent for dry, hot places; 6 in.....	.15	1.50
D. atrorubens —Deep blood-red flowers in dense heads. Robust grower; 2 ft.....	.15	1.50
D. cæsius grandiflorus —This is the "Cheddar Pink" and one of the best known of the family. It is very compact in growth and makes a cushion of glaucous leaves from which, in May, spring the sweet-smelling, rose-colored flowers, each on its own stem. It varies as much as from four inches to ten inches in height. It is easily grown and very fine for the wall or rock garden; 6 in.....	.15	1.50
D. deltoides (Maiden Pink)—A beautiful little plant		

WOLCOTT NURSERIES

	Each.	Doz.
with narrow leaves and bearing a profusion of small crimson flowers during June and July. Easily grown on rockery	.15	1.50
D. deltoides albus —A charming white form of the above variety	.15	1.50
D. deltoides "Brilliant" —A very choice variety of the above, bearing bright rose-colored flowers.....	.25	2.50
D. fragens —An easy rockery pink, needing sandy loam and grit. It produces white fringed flowers. Fragrant. Sun	.15	1.50
D. gallicus —Flowers purplish crimson, highly scented, on stems about one foot high.....	.20	2.00
D. giganteus —The tallest of the pinks, growing to a height of 24 to 28 inches. Bluish foliage, flowers of medium size, bright crimson on long, unbranched stems	.25	2.50
D. graniticus (Granite Pink) —A glorified form of the Maiden Pink, rather taller and with large rose-colored flowers from June onward. Prefers a sunny place and gritty soil. Especially fine for the rock garden	.25	2.50
D. kamtschaticus —Distinct rock plant and one of the best introductions of recent years. It is of trailing growth with large, deep pink flowers.....	.25	2.50
D. neglectus —One of the most beautiful wild Pinks in cultivation. The stems are about 6 inches high with deep rose-colored flowers, frequently borne two on a stem. No flower garden should be without this lovely Pink	.25	2.50
D. seguieri —A late flowering species with rose crimson blooms on stems about a foot high.....	.25	2.50
D. Simsii —Beautiful rock plant, delicate rose flowers, very fragrant. Choice.....	.35	3.50
D. superbus grandiflorus (Fringed Pink) —Very fragrant and bears deeply fringed flowers, ranging from white to pink or rose.....	.15	2.50
D. sylvestris (Wood Pink) —Bluish foliage and salmon pink flowers on stems about a foot high. It likes an open, sunny place in stony loam and a slight covering of stone chips upon the surrounding soil is beneficial	.15	1.50
D. plumarius hybrids (Hardy Garden Pink) —Very easily grown and ranging from white to deep rose. Hardy Pinks are favorites with all gardeners and thrive in a sunny, well-drained position. Very fine strain	.15	1.50

WOLCOTT NURSERIES

	Each.	Doz.
D. plumarius "Cyclops"—Lovely large-flowered single Pinks of rose or erimson color; fine for cutting; 15 in.	.15	1.50
D. plumarius "Homer"—Rosy pink with dark center....	.15	1.50
D. plumarius "Maurice Pritchard"—Perhaps the finest single Pink. Robust constitution. Exceptionally large pink flowers. Excellent for cutting.....	.15	1.50
D. plumarius "Mrs. Sinkins"—Large double white flowers. Very fragrant.....	.25	2.50
D. plumarius "Munstead Strain"—A charming class of pheasant-eyed Pinks. Single flowers and very frag- rant	.15	1.50
Hardy Carnations —The genuine hardy border carnation is a great addition to the garden. During the last few years great progress has been made in the culture of these plants and we take great pleasure in of- fering a strain from one of the best known growers in Scotland. They are perfectly hardy and bear in profusion blooms that are quite as large and just as handsome as the greenhouse variety.....	.25	2.50

SWEET WILLIAM

Hardy Perennial

D. barbatus "Diadem"—Most effective. Rich erimson with large white eye.....	.15	1.50
D. barbatus "Harlequin"—Each head of flowers in- cludes many shades of color, curiously marked. Ex- ceedingly bright	.15	1.50
D. barbatus "Holborn Glory"—A very fine auricula- eyed variety, white with a well marked and distinet eye	.15	1.50
D. barbatus "Pink Beauty"—A beautiful salmon pink variety, which should be grown in every garden.....	.15	1.50
D. barbatus "Scarlet Beauty"—An intensely rich deep scarlet. Very new and very fine.....	.15	1.50
D. barbatus "Giant White"—A very fine large flowered pure white variety.....	.15	1.50
D. barbatus Double Mixed—A splendid strain of the old-fashioned double Sweet William.....	.15	1.50

DIGITALIS—Foxglove

Hardy Perennial

The Foxglove has been a favorite in gardens since

Each. Doz.

our grandmother's time and adds beauty and dignity to any planting. The newer varieties show exceedingly choice colorings as well as increased size in spike and bloom and in combination with Larkspur and Canterbury Bells, create a most charming spot in any garden.

Their cultivation will give no trouble if given a rich, friable soil and not treated too kindly by covering the crowns for the winter. Cornstalks, so placed that they do not mat down, make an ideal covering, as they must have air during the winter. It is also well to remove some of the largest leaves.

- | | | |
|---|--------|---------|
| D. "Ayshire White" (New White Foxglove)—A very fine variety, producing large spikes of pure white flowers | \$.25 | \$ 2.50 |
| D. "Giant Primrose"—A beautiful Foxglove with large flowers of cream or buff color..... | .20 | 2.00 |
| D. "Giant Spotted"—Beautiful Spotted flowers in many different colors. Very large..... | .15 | 1.50 |

DRABA—Whitlow-Grass

Hardy Perennial

One of the important spring flowering plants for the rockery. Very dwarf and compact with numerous small flowers in early spring. They require an open soil and sunny position.

- | | | |
|--|--------|---------|
| D. <i>aizoides</i> —Forms beautiful little rosettes of hairy leaves, covered in spring with bright yellow flowers about 2 inches high..... | \$.35 | \$ 3.50 |
|--|--------|---------|

DRACOCEPHALUM—Dragon's Head

Hardy Perennial

A very valuable class of plants for moist, shady positions. They do not bloom well where it is dry and sunny.

- | | | |
|---|--------|---------|
| D. <i>japonicum</i> "Blue Gem"—An excellent deep blue hybrid of <i>D. japonicum</i> and blooms all summer. About one foot high..... | \$.25 | \$ 2.50 |

ECHINOPS—Globe Thistle

Hardy Perennial

- E. *ritro*—Showy, thistle-like plants with large heads of steel blue flowers in July. Very attractive to bees

WOLCOTT NURSERIES

	Each.	Doz.
and exceedingly effective when planted near rose-pink phlox	\$.20	\$ 2.50
E. <i>sphaeroccephalus</i> —Fine silvery foliage and heads of whitish flowers	.25	2.50

ERIGERON—Fleabane

Hardy Perennial

Showy plants with daisy-like blooms springing from tufts of more or less hairy leaves. Very effective used in masses in the border or rock garden.

E. <i>elator</i> —Striking plant with silvery-lavender flowers in clusters on stems about a foot high.....	\$.20	\$ 2.00
E. <i>glabellus</i> —Dwarf, violet flowers.....	.20	2.00
E. <i>speciosus</i> —Lavender flowers with yellow disc. Very free flowering	.20	2.00
E. <i>speciosus grandiflorus</i> —Larger and deeper colored than the type.....	.20	2.00
E. <i>speciosus Mesa-Grande</i> —Rich, deep blue. Erect and very free flowering. New.....	.25	2.50

ERINUS—Wall Erinus

Hardy Perennial

Very attractive spring flowering plants for the rock garden or dry wall. Thrives best in steep parts of the rockery where water cannot lodge and requires a little shade from the mid-day sun.

E. <i>alpinus</i> —Purple flowers in racemes about 2 in. long..	\$.20	\$ 2.00
E. <i>alpinus albus</i> —A white variety of the above.....	.20	2.00
E. <i>alpinus roseus</i> —Sprays of bright red flowers and very attractive in clumps.....	.20	2.00

ERYNGIUM—Sea Holly

Hardy Perennial

Handsome ornamental plants for the hardy border and especially useful for striking effects in landscape work.

E. <i>agavifolium</i> —Very distinct long wide prickly foliage. Very ornamental and good habit.....	\$.35	\$ 3.50
E. <i>planum</i> —Branching heads of steel blue flowers, stems and bracts of a glistening metallic sheen.....	.20	2.00

GAILLARDIA—Blanket Flower

Each.

Doz.

Hardy Perennial

During the summer and autumn months Gaillardia are among the gayest and most showy flowers and when grown in masses are literally a sheet of brilliant color. The flowers last a long time either on the plants or in a cut state.

The hybridist has been busy during the last few years and the march forward in Gaillardia raising has been extremely rapid, both as to color and size. The culture of the Gaillardia is extremely easy as they thrive in almost any position, although preferring full sun and a moderately rich soil, well drained. They are very handsome planted with *Lilium Elegans*.

G. Cissie Loftus —Chrome yellow, deepening to bronze in the centre; large flower with two rows of petals	\$.35	\$ 3.50
G. Copper King —Beautiful new variety, with large, attractive flowers of coppery red.....	.35	3.50
G. James Kelway —Very large, sometimes 5 inches across, dazzling scarlet with gold edge.....	.35	3.50
G. Lady Rolleston —A magnificent golden yellow variety with a yellow center. Choice.....	.35	3.50
G. Langport —Large and striking flower, bright crimson with broad yellow border.....	.25	2.50
G. Lord Methuen —Bronze colored petals touched old gold at the tips.....	.25	2.50
G. Patriot —Large crimson with deep yellow edge.....	.25	2.50
G. Reciprocity —Crimson, heavy gold edge. Like a single Collarette Dahlia.....	.25	2.50
G. William Kelway —Very large brilliant crimson, gold edge	.25	2.50
G. Mixed —From a fine collection of named varieties....	.15	1.50

GERANIUM—Crane's Bill

Hardy Perennial

G. grandiflorum —A fine plant for the border with striking deep violet flowers two inches across.....	\$.20	\$ 2.00
G. pratense album —Very handsome white variety of the Meadow Crane's Bill.....	.20	2.00

GEUM—Avens

Hardy Perennial

Excellent border or rock plants, liking plenty of sun

WOLCOTT NURSERIES

	Each.	Doz.
above and moisture at the roots during hot summers. They produce very showy, bright colored flowers from June to August.		
G. Bulgaricum —Enormous, orange yellow flowers; a magnificent variety. Very scarce and far in advance of any other Geum.....	\$.50	\$ 5.00
G. Eweni —Semi-double, orange yellow; 1 ft.....	.25	2.50
G. Mrs. Bradshaw —Large double scarlet, blooming nearly all summer. Very attractive.....	.25	2.50

GILLENIA—Bowman's Root

Hardy Perennial

G. trifoliata —Handsome plant for the rockery or hardy border with deeply cut foliage and numerous pinkish white flowers.....	\$.25	\$ 2.50
--	--------	---------

GYPSOPHILA—Chalk Plant

Hardy Perennial

G. cerastoides —Excellent plant for the rockery or very sandy soils, bearing a profusion of large white flowers, veined pink	\$.20	\$ 2.00
G. repens —Very attractive trailing plant for rockery or dry wall. Covered with small white flowers.....	.20	2.00

HELENIUM—Sneezewort

Hardy Perennial

Gorgeous plants for fall bloom, coming into flower in August and continuing until frost. There is quite a range in height and they are especially effective when planted with fall Asters.

H. Autumnale Rubrum —Deep, rich crimson-purple. Fine; 5 ft.....	\$.25	\$ 2.50
H. Ballanderi Superbum —Pale lemon, with dark center. Rare; 2 ft.....	.50	5.00
H. Riverton Beauty —Rich lemon yellow with large purplish center	.25	2.50
H. Riverton Gem —Old gold, changing to wall flower red. Very handsome.....	.25	2.50

HOLLYHOCK—Althaea Rosea

Hardy Perennial

No hardy garden is complete without the stately and majestic Hollyhock. They lend beauty to the hardy

border or shrubbery which cannot be secured with any other plant.

The Hollyhock requires a deeply dug, well enriched soil and should be well supplied with water during the summer months. They will live and thrive for years if protected around the collar with sand or coal ashes during winter and if the stem is left a foot or so high instead of being cut to the ground, it will prevent the crown from rotting.

So far as we know, there is no absolute cure or prevention of the Hollyhock disease but we are pleased to give our patrons the benefit of a remedy found most effective by the specialists in England:

"Slack one peck of lime and when cool add one peck of soot, 1 pound of flowers of sulphur and half an ounce of sulphate of copper (finely powdered). Pass the mixture through a fine sieve and dust the plants well over with it three or four times during the growing season, preferably early in the day while the dew is still on the plants."

We have been fortunate in being able to secure the most famous strain of Hollyhocks in the world and it affords us much pleasure to be able to offer them to our trade for the first time in this country.

	Each.	Doz.
A. Amaranth —Deep amaranth pink. Very distinct. Large and full.....	\$.35	\$ 3.50
A. Black Knight Improved —Distinct black and best of its color	.35	3.50
A. Decora —(New.) Buff, suffused with rosy cerise, which is very prominent in late autumn. Large, well filled flower, strong grower and forms a handsome spike	.35	3.50
A. Delicata —Soft, delicate, creamy white. Very chaste	.25	2.50
A. Fire King —Bright red. Full and of good form.....	.25	2.50
A. Hugh Mitchell —(New.) Lilac mauve, the edge of the flower being of a lighter shade. Quite a new color in Hollyhocks. Handsome spike and flowers well formed	.35	3.50
A. Mulberry Superb —Rich, glowing mulberry.....	.35	3.50
A. Olivier Chater —Soft, delicate flesh, edged with white. A most distinct shade of color.....	.25	2.50
A. Primrose Queen —(New.) Soft primrose, deepening toward the base to a clear, bright yellow. Flowers large but not overcrowded; handsome spike.....	.35	3.50
A. Salmon Queen —Fine, deep rich salmon. A most distinct and telling shade.....	.35	3.50

	Each.	Doz.
A. Ficifolia hybrida —Figleaved. So called from the shape of the leaf. Single blooms in many shades of color	.15	1.50
A. Allegheny —Large flowers with fringed petals in colors from palest pink to deep red. Mixed colors....	.20	2.00

IBERIS—Candytuft

Hardy Perennial

The evergreen Candytufts rank high among the rock garden flowers. They are of half-shrubby growth and in April and May become smothered with bloom. Ordinary well-drained soil suits them and they never look better than when planted above some rock ledge so that the growth may hang over its face.

1. Pruiti —A pretty little rock plant with pure white flowers	\$.15	\$ 1.50
1. Sempervirens "Snowflake" —A splendid new variety with large white flowers and evergreen habit.....	.30	3.00.

LATHYRUS—Everlasting Pea

Hardy Perennial

L. latifolius "Pink Beauty" —A very desirable hardy climber, bearing a profusion of delicate pink blossoms	\$.25	\$ 2.50
L. latifolius "White Pearl" —A very lovely pure white variety of the Everlasting Pea and a great improvement on the common L. <i>albus</i>	.25	2.50

LEONTOPODIUM—Edelweiss

Contrary to the popular supposition that, because of the natural habitat of Edelweiss being on high mountains, it is difficult to grow, it is really easy if firmly planted in well-drained, stony loam in a sunny place among the rocks. The woolly flower heads, on stalks about six inches high, rise from a loose tuft of rather narrow grey leaves, in June. It requires lime in the soil \$.25 \$ 2.50

LYCHNIS—Campion

Hardy Perennial

A family of very showy and useful plants both for

WOLCOTT NURSERIES

	Each.	Doz.
the border and rock garden. Very easy of culture, thriving in almost any soil but requiring full sun.		
L. alpina —A very attractive little plant for the rocky, of tufted growth and bearing heads of pink blossoms in May and June.....	\$.20	\$ 2.00
L. Arkwrightii —A new and very desirable border plant, being a cross between L. chalcidonica and L. Haageana. Makes a long and lasting display in many new and lovely colors.....	.50	5.00
L. chalcidonica —Brilliant scarlet; very showy.....	.20	2.00
L. chalcidonica rosea —A very attractive variety of the above, bearing large heads of salmon pink blossoms....	.25	2.50
L. Haageana —Brilliant orange scarlet blossoms in June and July.....	.20	2.00

MERTENSIA—Blue Bells

One of the most attractive early blooming plants and especially useful as it thrives best in shade. Should be given a very rich soil and be left undisturbed for years.

M. sibirica —Leaves somewhat fleshy, flowers purplish blue in long racemes.....	\$.20	\$ 2.00
M. virginica —(Virginian Cowslip)—Long, nodding clusters of pale blue flowers with pink buds, making a most charming combination. Prefers moist, peaty ground. Foliage disappears during summer.....	.20	2.00

MONARDA—Oswego Tea

Hardy Perennial

One of the most brilliant flowers for the border. Will grow in almost any position and spreads rapidly.

M. Didyma — Cambridge Scarlet —A very brilliant variety and especially effective with a dark background..	\$.15	\$ 1.50
---	-------	---------

MORINA—Whorl-Flower

M. Longifolia —A very handsome plant with spiny thistle-like foliage and tall spikes of white and rose tubular flower in whorls. They thrive in rich, sandy loam and require a little shade and shelter; 2 ft.....	\$.50	\$ 5.00
---	-------	---------

MYOSOTIS—Forget-me-not

Each. Doz.

Nearly everyone is familiar with the Forget-me-not which makes such beautiful pictures in the garden in early spring. They are alike charming in the border, rock garden or by the water side. They all require shade and a fair amount of moisture.

M. Alpine Blue —One of the most intense blues of all the Forget-me-nots and makes a very compact growth; 9 inches.....	\$.15	\$ 1.50
M. Blue King —One of the richest and deepest colored blues of all the Alpine Forget-me-nots; 10 in.....	.15	1.50
M. alpestris —(Alpine Forget-me-not)—Bright blue; a lovely rock garden plant.....	.15	1.50
M. alpestris rosea —Charming pink variety of above....	.15	1.50
M. alpestris "Queen Victoria" —Improved dwarf variety with large flowers in clusters.....	.15	1.50
M. Palustris Semperflorens —Large rich blue flowers with yellow eye, a charming plant for damp places and a more profuse bloomer than the type.....	.15	1.50
M. Ruth Fisher —A fine new hybrid of compact habit, with dark green glossy foliage and large, bright blue flowers	.25	2.50
M. Spring Beauty —A beautiful early flowering variety of compact habit and charming light blue flowers; 10 inches	.25	2.50
M. Royal Blue —An exquisite variety of Forget-me-not, literally covered with flowers of beautiful indigo blue in long sprays. A mass of this makes a sight not to be forgotten. Fine for cutting; 12 in.....	.15	1.50
M. Welwitschii —A Spanish species with large blue flowers and distinct yellow eye. Makes a compact, tufted growth. Choice.....	.20	2.00
M. White Lady —A beautiful variety, covered with clusters of white flowers, having a small, striking yellow eye; 10 in.....	.15	1.50

MYRRHIS—Myrrh

Hardy Perennial

M. odorata —The Sweet Cicely of English gardens. A very attractive plant having finely cut foliage resembling a large fern and bearing panicles of lace-like white bloom in early spring. Very valuable as a background for spring blooming bulbs.....	\$.25	\$ 2.50
---	--------	---------

NEPETA—Catmint

Each. Doz.

Hardy Perennial

- | | | |
|---|-----|------|
| N. Mussini Superba —A branching plant bearing numerous lavender-colored flowers. The leaves are small and grayish and is a most useful plant for color effect in either the border or rockery..... | .20 | 2.00 |
|---|-----|------|

OENOTHERA—Evening Primrose

Hardy Perennial

The Evening Primroses are excellent subjects for planting in sunny, exposed parts of the garden and are especially fond of a sandy soil.

- | | | |
|--|--------|---------|
| O. speciosa —Large, pure white flowers, about 3 in. across | \$.20 | \$ 2.00 |
| O. speciosa rosea —A most striking new variety. The beautiful rose colored flowers cover the plant from early summer until frost..... | .25 | 2.50 |
| O. taraxacifolia —Forms a spreading tuft of leaves close to the ground, from which spring twisted stems bearing very large white blooms, turning to pink with age. Very attractive..... | .35 | 3.50 |

PAPAVER—Poppy

- | | | |
|--|--------|---------|
| P. alpinum —Like a small and more delicate Iceland Poppy having flowers of white, pink, orange or yellow and often delicately fringed. Transplants best when quite small. True stock, from Switzerland..... | \$.20 | \$ 2.00 |
| P. nudicale —Iceland Poppy—A native of the arctic regions and mostly yellow flowered. Very showy and excellent for cut flowers..... | .20 | 2.00 |
| P. pilosum —Very attractive alpine with showy red flowers | .20 | 2.00 |

HARDY PHLOX

Perennial

These beautiful hardy border plants are among the most effective things in the garden during the late summer and fall months. The varieties have been much improved during the past few years, both as to color and size of pip. To be at their best, they require soil which has been deeply enriched and plenty of water during the blooming period. It is also well to remember that they should never be allowed to go to seed and should be divided every three years, or they will become small

WOLCOTT NURSERIES

	Each.	Doz.
and in not a few cases, change their color.		
We have tried to confine our list to the very best of the numerous varieties offered and can safely say there is not a poor variety in the lot.		
Baron von Dedem —Large, handsome spike; brilliant blood red flower.....	\$.15	\$ 1.50
Elizabeth Campbell —One of the finest. Large flower and spike. Bright salmon pink with dark red eye.....	.25	2.50
Eugene Danzenvillier —Lilac, shading to white at the edges	.15	1.50
Europa —A new variety, white with large crimson-carmine eye. Very large flower and truss.....	.25	2.50
Frau Anton Buckner —The finest white phlox. Strong habit and flowers of an enormous size.....	.15	1.50
Gefion —Peach-blossom pink with bright rose eye. Very attractive	.25	2.50
Jeanne d' Arc —Good late flowering pure white. Very free bloomer	.15	1.50
Le Mahdi —Dark purple violet. Late.....	.15	1.50
Louise Abbema —Very large, dwarf, pure white.....	.15	1.50
Mme. Paul Dutrie —Very soft, delicate pink. Flowers very large, immense panicle.....	.15	1.50
Miss Lingard —An early flowering variety, beginning in June and continuing all summer. White, with faint lilac eye and handsome, deep green foliage, it is a most popular variety for planting in masses.....	.20	2.00
Mrs. Jenkins —Pure white, enormous truss. Free bloomer and one of the best white.....	.20	2.00
Obergartner Wittig —Deep rose with carmine eye. Large flowers and truss.....	.15	1.50
Rheinlander —Very handsome salmon-pink with deep elaret-red eye. Flowers and truss of immense size. Very choice	.25	2.50
Rosenberg —Bright reddish-violet with blood-red eye. A most striking variety.....	.15	1.50
R. P. Struthers —Bright rosy-carmine with elaret-red eye. Very brilliant.....	.15	1.50
Rynstrom —Beautiful rose pink. Extra fine.....	.25	2.50
Thor —Enormous flowers of a deep salmon pink, overlaid with scarlet. A most beautiful variety.....	.25	2.50
Von Lassburg —Pure white; very large individual flowers	.15	1.50
W. C. Egan —A most beautiful variety of soft pink with

	Each.	Doz.
bright red eye. Immense flower and truss. Very fine	.25	2.50
Widar —Purple violet with very large white center.....	.20	2.00

PHLOX ARENDSI

This new strain of early flowering Phlox originated from crossing *P. canadensis* and *P. deussata*. The plants are vigorous, from 12 inches to 24 inches high and produce masses of bloom from the latter part of May until July.

Amanda —Bright lilae with deeper eye. Very dwarf.....	\$.25	\$ 2.50
Charlotte —Pale lilae with conspicuous dark eye; 15 in.	.25	2.50
Grete —Flowers white, buds delicate pink; 20 in.....	.25	2.50
Helene —Beautiful lavender blue; 18 in.....	.25	2.50
Kathe —Rosy purple with a dark eye; 20 in.....	.25	2.50
Louise —Bright lilae with earmine eye. Very strong growth; 24 in.....	.25	2.50

PHYSOSTEGIA—False Dragon-Head

Hardy Perennial

P. Virginica Grandiflora —A plant much valued for hardy borders, blooming as it does in August when flowers are scarce. In good deep soil, will attain a height of over seven feet; bears long spikes of bright but soft pink flowers.....	.15	1.50
P. Virginica Grandiflora Alba —Pure White, very attractive	.15	1.50

PLATYCODON—Chinese Bellflower

Hardy Perennial

These are closely allied to the Bellflower family and derive the name of "Balloon Flower" from the shape of the buds. They enjoy a very rich, loamy soil and are most attractive plants for the border, bearing blue blossoms for about a month or six weeks, beginning about the middle of July. They are best planted when quite young, as they do not bear disturbing after once established.

P. Maresii —A splendid variety of dwarf habit with very large flowers of a purplish blue color.....	\$.25	\$ 2.50
--	--------	---------

	Each.	Doz.
P. Grandiflorum —Very handsome variety, about 2 ft. high, blooming in July and August. Flowers a deep blue two to three inches across.....	.15	1.50

POLEMONIUM—Jacob's Ladder

Hardy Perennial

Excellent border plants with strikingly handsome and effective blossoms. The foliage is also very handsome, closely resembling some of the ferns. They flourish in rich, deep, well-drained loam and prefer partial shade.

P. Cæruleum Grandiflorum —A very large form of P. Cæruleum having long spikes of large blue blossoms....	\$.15	\$ 1.50
P. Cæruleum Grandiflorum Album —A fine white form of the above.....	.15	1.50

POLYANTHUS—Bunch Primrose

Hardy Perennial

The Polyanthus is an indispensable spring flower and should be used largely in flower beds and borders, also wild gardens and rockeries. It likes an open, half-shady position in rich soil and under such conditions will bear flower stems a foot high.

P. Exhibition Blue —A very beautiful strain, having flowers from deep to light blue.....	\$.50	\$.500
P. Munstead Strain —In shades of yellow, from cream to dark orange, selected and perfected by Miss Jekyll of England for the past thirty-five years.....	.25	2.50
P. Pink and Red Shades —Very handsome, ranging from light to dark red, with yellow eye.....	.25	2.50
P. Exhibition White —A very fine, large-flowered pure white, with a striking yellow eye.....	.35	3.50
P. Woodside Varieties —A very beautiful strain of Polyanthus obtained from Adelaide, Duchess of Bedford	.35	3.50

PRIMULA—Primrose

Hardy Perennial

A race of plants little known in America, but forming one of the most attractive features of the spring garden. They are perfectly hardy in our Michigan climate

Primula denticulata

WOLCOTT NURSERIES

	Each.	Doz.
and once established are as sturdy as our oaks. The different varieties range in size from four inches to three feet, and in time of blooming from early April until late summer.		
P. "Alannah" —A beautiful Primrose between Bulleyana and Beesiana. The flowers are bright coppery red, shading deeper to eye, which is of rich yellow. Very new and very choice.....	1.00	10.00
P. "Asthor" —Coppery old rose flowers, tinged with heliotrope and shading deeper to the yellow eye.....	.75	7.50
P. Beesiana —Distinct type of Bulleyana and pulverulenta but later than either, with flowers of various shades of purple with yellow eye; 3 ft.....	.75	7.50
P. Bulleyana —A beautiful species from Yunnan. Flowers rich golden yellow, shaded orange buff, borne in whorls on stiff stems; 2 ft.....	.50	5.00
P. Bulesiana Hybrids —A new strain of Hardy Primulas with the constitution of P. Japonica resulting from the crossing of P. Bulleyana and P. Beesiana. They were given an AWARD OF MERIT by the Royal Horticultural Society in 1916. Colors range from cream to many shades of yellow, orange, purple, lilac, pink and crimson. They are very hardy and prefer a half shaded position that is fairly moist..	.50	5.00
P. capitata —Producing dainty heads of handsome violet blue flowers, dusted with a white mealy powder. Likes a partially shady, moist position; late; 1 ft.....	.50	5.00
P. Cashmeriana —Flowers much the same as denticulata but of a deep purple.....	.50	5.00
P. Cockburniana —A lovely species recently introduced from Western China, bearing scarlet flowers in whorls; very striking. Makes a wonderful combination of color planted with Bulleyana. Biennial; 1 ft.....	.50	5.00
P. cortusoides —A distinct Siberian species, with soft, wrinkled heart-shaped leaves. Flowers in early summer, deep rose. Prefers light, rich, well-drained soil, in a sunny position, in border or rockery; 10 in.....	.35	3.50
P. denticulata —Very handsome, large flower heads, in various shades of lilac. One of the first to bloom. Prefers a moist, shady position; 2 ft.....	.50	5.00
P. denticulata alba —A beautiful white form of the above; 2 ft.....	.50	5.00
P. farinosa —Silvery foliage and rosy purple flowers; 1 ft.	.35	3.50
P. Forresti —A beautiful variety recently introduced		

WOLCOTT NURSERIES

	Each.	Doz.
from China. Flowers on slender stems, deep orange, and very fragrant. Prefers well drained, half shady position in rock garden.....	.75	7.50

P. "Wilson's Blue"—A fine novelty, producing many charming shades from deep violet to lavender.....	.50	5.00

PYRETHRUM—Persian Daisy

Hardy Perennial

	Each.	Doz.
A charming, old-fashioned flower which has been much improved during recent years by Kelway of England. They are invaluable both for cutting and for color effects in the hardy border. They are exceedingly easy of culture, asking only for well drained soil and plenty of sun. However, they amply repay generous feeding. We are pleased to be able to offer Kelway's strain of these lovely plants.....	\$.25	\$ 2.50

RUDBECKIA—Cone-Flower

Hardy Perennial

Fine plants for the hardy border and very easily grown.

R. Newmannii —Orange yellow flowers with black center, on stout, wiry stems; 2 ft.....	\$.15	\$ 1.50
R. Purpurea (Giant Purple Cone-Flower)—Rosy purple flowers on stiff stems, 3 to 4 feet high. Very effective	.15	1.50
R. subtomentosa —A densely branched plant about 2 ft. high, completely covered with a mass of brilliant yellow flowers with dark centers.....	.15	1.50

SALVIA—Meadow Sage

Hardy Perennial

S. azurea grandiflora —A most attractive plant for the border bearing exquisite pale blue spikes of flowers on stems 3 to 4 ft. tall. It prefers a rich, sandy loam in a sunny position.....	\$.25	\$ 2.50
---	--------	---------

SAXIFRAGA—Dactyloides—Mossy Saxifrage

The Mossy Saxifrages are ideal plants for amateurs. They form perfect little carpets of evergreen that quickly spread over the ground or cover the stones with beautiful, close-tufted verdure, which, in Spring and early Summer, become jeweled with little rounded blooms in pink, white or red. Most of them are easy to grow and ordinary, well-drained, loamy ground, with which pieces of grit or stone have been mixed, suits them admirably. They prefer half shade to full sun.

S. **decipiens Bathoniensis**—Grows nearly a foot high,

WOLCOTT NURSERIES

with much branched stems, and large brilliant red flowers	Each \$.50	Per. \$ 5.00
S. decipiens Blutentippich—Scarlet flowers; 6 in.....	.50	5.00
S. decipiens Tapis Rouge—Rose colored flowers; 4 in...	.50	5.00
S. decipiens Guildford Seedling—Small red flowers, compact grower	.50	5.00
S. decipiens Red Admiral—A handsome saxifrage, bearing an abundance of vivid crimson flowers.....	.50	5.00
S. muscoides Magnifica—Largest flowering of all. Flowers clear crimson.....	.50	5.00
S. muscoides Rhei superba—Deep rose colored flowers; 4 in.....	.50	5.00

SAXIFRAGA—Megasea

Hardy Perennial

A most effective class of plants having broad, deep green foliage which takes on most beautiful tints in the fall. They are perfectly hardy, their only demand being stones around the roots, which makes them very desirable for the rock garden. The flowers are borne on stout stems well above the foliage and are very handsome, ranging in color from palest pink to rose and purple. We are able to offer Smith's hybrids, which are the finest grown

.....	\$.25	\$ 2.50
-------	--------	---------

SEDUM—Stone Crop

Hardy Perennial

The dwarf varieties are charming plants for sunny positions in the rockery, etc., and the taller kinds make effective color groups in the border. They thrive in almost any soil. They are especially fond of sand and full sun.

S. album —Foliage green. Small white flowers; 3 in....	\$.10	\$ 1.00
S. anglicum —A very choice variety of Sedum with delicate pink, feathery blossoms. It is reputed hard to grow but has been most rampant with us in a sandy soil and full sun. A gem for the rockery.....	.25	2.50
S. glaucum —Dense gray tufts and white flowers.....	.15	1.50
S. Laggeri —Attractive new species, with orange flowers	.15	1.50
S. lydium —Pink blossoms; bronzy green tufts.....	.15	1.50
S. maximum —Tall, robust species, foliage purplish, flowers salmon pink.....	.20	2.00

WOLCOTT NURSERIES

	Each.	Doz.
S. monstrosum —Yellow blossoms; 1 ft.....	.20	2.00
S. pilosum —Choice and very rare variety, forming hairy green rosettes, and bearing clusters of pink flowers; 2 in.....	.50	5.00
S. pulchellum —One of the prettiest of the family, with trailing stems and bright red flowers, like a starfish; 5 inches	.35	3.50
S. spathulatum —Bright yellow flowers; grey rosettes; 6 inches	.20	2.00
S. spurium splendens —Creeping habit with umbles of rosy pink flowers.....	.35	3.50

STACHYS—Wound Wort

Hardy Perennial

Stachys lantana —Handsome silvery white foliage with stalks of bloom about a foot high, purple, borne in the axils of the leaves. Very valuable for color contrast in the border and especially handsome planted with pink Canterbury Bells.....	.15	1.50
---	-----	------

STOKESIA—Stokes' Aster

Hardy Perennial

A handsome, vigorous plant, with heads of flowers about 1½ inches across, from July to September. Fine for cutting.

S. cyanea —Very handsome lavender blue flowers. Prefers full sun.....	\$.15	\$ 1.50
S. cyanea alba —Pure white variety of the above.....	.15	1.50

THALICTRUM—Meadow-Rue

Hardy Perennial

The Meadow Rues are among the most beautiful plants in the garden. Their foliage is finely cut and closely resembles the Maiden Hair Fern, while the blossoms lend a light and feathery grace to their surroundings. They are fine for cutting and the foliage is most useful mixed in boquets. They prefer a rich loam and rather moist position.

T. adiantifolium —Very beautiful with miniature white flowers through July.....	\$.25	\$ 2.50
T. aquilegifolium —Feathered Columbine. Handsome foliage; sepals white, stamens purple.....	.25	2.50

WOLCOTT NURSERIES

	Each.	Doz.
T. <i>aquilegifolium atropurpureum</i> —Graceful foliage and masses of rosy purple flowers; 3 ft.....	.25	2.50

---	--------	---------

TUNICA—Coat Flower

Hardy Perennial

T. <i>saxifraga</i> —Beautiful little prostrate rockery plant with rose colored flowers.....	\$.20	\$ 2.00
--	--------	---------

VALERIANA—Valerian

Hardy Perennial

One of the most popular of the old-fashioned garden flowers and of the easiest culture.

	Each.	Doz.
V. officinalis (Garden Heliotrope)—Very fragrant, pinky-lavender flowers in June.....	\$.15	\$ 1.50
V. rubra —A red flowered form of the above.....	.20	2.00

VERBASCUM—Mullein

Verbascums, commonly known as mulleins, have been greatly improved in recent years. We know of no plants more noble or picturesque than these newer varieties. Their pyramidal spikes, towering up among other border plants are just the flowers to give the whole border a light, graceful and most natural appearance.

Roots should be given a good, deep soil, but well drained and very sandy. When the stems are cut down in the fall cover the crowns well with ashes or sand. The crown may sometimes appear to be dead, but the roots are still alive and should not be disturbed.

V. "A. M. Burnie" —Branching spikes of rosy-fawn flowers; 4 ft.....	\$.50	\$ 5.00
V. chaixii —A fine border plant with long spikes of yellow flowers	.25	2.50
V. chaixii album —A beautiful white flowered counterpart of the above.....	.25	2.50
V. giganteum —(New.) A noble species with handsome silvery foliage and spikes of golden flowers; 10 ft.	.35	3.50
V. Harkness' New Hybrid —A handsome new mullein with woolly grey foliage and stout stems covered in late summer with very large yellow flowers.....	.25	2.50
V. "Miss Willmott" —Huge spikes of creamy white flowers and golden stamens. Beautiful; 10 ft.....	.50	5.00
V. nigrum —Fine spikes of yellow flowers, with purple eye. Very handsome, and most effective planted with Larkspur	.35	3.50
V. Olympicum —Silvery leaves and much branched flower spikes, studded with yellow blossoms.....	.35	3.50
V. phlomoides alba —Dense spikes of white flowers, 5 feet high	.25	3.50

WOLCOTT NURSERIES

	Each.	Doz.
V. phœniceum —Very attractive border plant, of various shades, including white, pink, and violet, in graceful spikes; 2 ft.....	.25	2.50

VERONICA—Speedwell

Hardy Perennial

V. incana —Silvery foliage with spikes of pale blue flowers. Valuable for both rock garden and border.....	\$.20	\$ 2.00

V. ochridea —Very handsome variety from the Balkans. Grows four or five feet in height and produces a profusion of clear, blue flowers.....	.25	2.50
V. rupestris —A most charming rock plant forming thick masses of deep green foliage which is smothered in early spring with bright blue flowers.....	.20	2.00
V. spicata —A fine border plant, growing about two feet tall and in June producing long spikes of bright blue flowers	.20	2.00
V. teucrium "Royal Blue" —Very desirable variety for the rock garden as it is of trailing growth and covered with deep blue flowers in June.....	.20	2.00
V. "True Blue" —Very handsome variety with brilliant blue flowers late in summer; 1 ft.....	.25	2.50

VIOLA—Tufted Pansy

Hardy Perennial

The Viola is not as well known in America as it should be for it is perfectly hardy in well-drained soil and a most profuse bloomer from early Spring until Fall. It needs deep, well-enriched soil and considerable sun, with plenty of water. They are ideal for carpeting rose beds as the roses afford just enough shade. The colors are varied, as in Pansies, but much more refined and need to be grown to be appreciated.

Do not allow to seed, as it will stop the bloom and early in September cut back all straggling growth, when they will make new tufts.

V. Ariel —Mauve, beautifully shaded with white.....	\$.35	\$ 3.50
V. Aurora —Bluish purple. Immense bloomer.....	.35	3.50

	Each.	Doz.
V. Blanche —Creamy white; very large.....	.35	3.50
V. Blue Gown —Blue, tinted mauve.....	.35	3.50
V. Cecilia —Creamy white, edged pink.....	.35	3.50
V. Councillor W. Waters —Crimson purple.....	.35	3.50
V. Gen. Baden Powell —Orange, very large.....	.35	3.50
V. James Pilling —Pure white with lavender margin....	.35	3.50
V. John Forbes —Violet, shading to rich rose.....	.35	3.50
V. Kitty Bell —Lavender. Very refined.....	.35	3.50
V. Maggie Mott —Soft mauve, free flowering. Fine....	.35	3.50
V. Moseley Perfection —Deep yellow; large and grand	.35	3.50
V. Snowflake —Snow white; very large.....	.35	3.50
V. Wm. Neil —Rose. Very pleasing.....	.35	3.50
V. William Robb —Lavender. Very free.....	.35	3.50
V. Mixed —A choice collection from seed saved from the above named varieties.....	.20	2.00

VIOLA CORNUTA—Horned Violet

Hardy Perennial

One of the parents of the tufted pansy and much grown as an edging for beds and borders. It is a Pyrenean species and of dwarf, tufted habit.

V. cornuta Admiration —Soft purple, dark blotch.....	.10	1.00
V. cornuta lutea splendidus —Rich golden yellow.....	.10	1.00
V. cornuta Mauve Queen —Reddish violet. Very fine..	.10	1.00
V. cornuta Papilio —Violet with dark eye.....	.10	1.00
V. cornuta — Blue Perfection —Very deep blue.....	.10	1.00
V. cornuta — White Perfection —Lovely pure white.....	.10	1.00

VIOLA GRACILIS—Olympian Violet

Hardy Perennial

A lovely Grecian species on the order of the Violetta. Planted in masses in an open position on the rockery, they will rapidly cover the ground with dark green foliage that is covered throughout the most of the spring and summer with their dainty blossoms.

V. gracilis —Intense violet flowers. A fine rock plant..	\$.20	\$ 2.00
V. gracilis " Purple Robe "—Bloom from April to Sep- tember. Very choice.....	.25	2.50
V. bosniaca —A perfect gem from Bosnia, with quanti- ties of rose colored flowers. Resembles <i>gracilis</i> in habit	.35	3.50

WAHLENBERGIA—Tufted Harebell

Hardy Perennial

Beautiful, free flowering plants, especially suited to the rock garden. They are closely allied to the Bell-flowers and need about the same treatment.

	Each.	Doz.
W. <i>dalmatica</i> —Beautiful dwarf alpine, flowers deep violet. Rare	\$.50	\$ 5.00
W. <i>graminifolia</i> —Long grassy foliage and pale blue flowers. Prefers ledge of rocks.....	.50	5.00
W. <i>tasmanica</i> —Beautiful variety with bright blue flowers. Very new.....	.50	5.00
W. <i>vinæflora</i> —A native of Australia and New Zealand, this beautiful new perennial bears large blue flowers on stems from 9 to 12 inches high. The color is exquisite and it is a gem for the rock garden.....	.50	5.00

SHRUBS

Our list of shrubs comprises the best of our native as well as some other varieties and we shall add to our list the best of the novelties. Our stock is sturdy, well-rooted and is sure to thrive if given proper care and attention after planting.

ARALIA—Angelica Tree

	Each.	Doz.
